Allowance

1. Claims 1-7,9-18 and 20-26 are allowed as per the decision from the board of patent appeals and interference (BAPI). See board's decision of December 22, 2005.
2. The invention relates to a method of operating a wireless device, comprising:
 - receiving positional information from a plurality of users in an ad hoc network;
 - selecting a first portion of the plurality of users to be within a pro active region based upon said positional information;
 - maintaining information on the users selected to be within the pro active region; and
 - accessing topographical information on a region in which the wireless device is currently located,
 - wherein selecting the first portion of the plurality of users further comprises selecting the users based on the positional and topographical information.

The primary reference Robert [US 6,104,712] fails to disclose the above underlined unique feature of the invention. Therefore the claims 1-7,9-18 and 20-26 are allowed.
